Advertising only of a reputable character. Prices proportionate with circulation. Job Work—One hundred copies of the latest style. Work fine and fancy, at reasonable rates.

**Thursday, January 15, 1903.**

**COLLECTIONS.**

We have given to Mr. John Pettit, attorney-at-law, and who gives special attention to this kind of professional work, a hundred and more accounts for collection. It is not the purpose to sue, to annoy, nor to get out of the money due to us, but a little of the money due to us, so that we can pay our bills, and continue our business. The amount each owes us, from one to ten and twenty dollars, is not much to each man but is a great deal to us.

We hope our subscribers who are "gently reminded" by our collector will take the request to pay what they can in good faith and not get mad about it. When we are jammed, we pay or promise and keep in good humor, and start after some other good humored party, who may pay, or promise.

Attention and courtesy to our collector will be appreciated by him and the SENTINEL.

**PROVCKING.**

The last three issues of the SENTINEL were provoking, both to publisher and reader. The paper was of an inferior quality, not what we ordered, and its character was not known until too late to replace it. Printing paper is much like an egg, its quality not known till it is to be used. The cold weather has much to do with ink and about all the appliances, and up to this time the publisher is about as able to control weather conditions, as Mark Hanna is to produce harmony in his party. We hope our readers were not any more put out with our bad looking imprint than we were, and will bear with us and hope with us for better looks when the blizzard passes and the clouds roll by. The weather has about as much to do with the appearance of a newspaper as with a man, and we know not how pretty we look when we shiver.

**PROSECUTING ATTORNEY McBRROOM** in his first work in office has been very successful in securing indictments before the grand jury and in securing conviction in court. He is meeting with deserved praise from the Court, the Jury, the Bar and the public, whose interest he is charged to protect.

**BRECHER** once said "no man is converted and can make a good prayer with cold feet." It might be remarked that with the gas supply short, the thermometer at zero, the paper as cold as ice, and type sticking to the printer's fingers, no paper, at least not the SENTINEL, can be made very interesting.

Since last Sunday, and until yesterday, Logan suffered more from cold than at any other time in the memory of the oldest inhabitant. The fierce forty-mile-an-hour wind penetrated every crack and crevice, and chilled the inside of the house, and everything in it. The gas supply was short, and would scarcely heat the stove in the office. It was on Monday, for the printing office, a case of "freeze out."

**The Hauranigans.**

We left the two fighting factions of the Republican party of Hocking last week on the banks of Rush creek.

They do not know where to go or what to do for.

So, for the present we will leave them there, "nursing their wrath to keep it warm," until the forthcoming Senatorial convention.

**Secretary of State Laylin Re installed.**

**Hon. L. C. Laylin** entered upon his second term in last Monday. He made an honorable, honest, efficient state officer, and enters upon his second term, with honors well won, and with the best wishes of all the good people of the state, that his second term in state service will be as honorable to himself, as serviceable to the public as the first.

**Teacher's Institute.**

The Teacher's Institute organized with the election of Prof. J. P. Nunemaker as president, Will White Secretary, Henry Schaal, Harley Whitcraft and Miss Alma McCarthy executive committee.

The Institute will hold session the last week in August.

We are glad to learn that it is the purpose of the management to have as one of the lecturers, Prof. Clem Martzoff, a native of near Maxville, Superintendent of the New Lexington schools. There is a sensible propriety in having a teacher of Prof. Martzoff's class to lecture. He was educated in the country school, was a teacher of country schools, with a curriculum of studies from A B C to Differential Calculus, and knows from practical experience the country school by heart. Prof. Martzoff is self-made, and has attained a foremost place among the leading educators of the state. He is Secretary of the State School Examiners Association; Secretary of the State Archaeological and Historical Society, and an author in school literature who commands wide attention in the highest educational circles. His recent history of Perry County ranks him not only a pleasing writer, but proves scholarship and depth of research in scientific fields.

Prof. Martzoff is, in his "Better Half," a Hocking Haw Eater, his wife a Miss Blum, and his relationship in the Maxville country, his birth place and life's beginning, make him the very proper man to lecture our Hocking teachers to their advantage.

**Grand Jury Indictments.**

The grand jury has returned the following indictments: Charles Nutter, murder in the first degree, murder with intent to rob and murder with intent to rape; George Cookley and George Short, burglary and larceny; Morg Lanning, assault and battery; John Fugate, willful destruction of property; Charles George, disturbing religious meeting; Frank Davis, assault and battery; William Lacy, failure to provide for minor children; Barney Blankenship, throwing stones at railroad train; James Geiger and Ed Campbell, disturbing religious meeting; Elias A. Dennis, failure to provide; Frederick Heine, failure to provide; Dick Flannigan, selling whiskey in local option township; James Mahaffey, running gambling house; Frank Snedden, disturbing religious meeting; Jacob Myers, failure to provide for family; Frank Summers and Harry Houston, disturbing religious meeting; John McLaughlin, failure to provide; Charles Walker, burglary and larceny; Frank Canter, failure to provide; Harry Houston, exposing person, also intoxication; J. L. Richardson, obtaining money under false pretense; George Nalle, intoxication.

The following cases were disposed of: George Cookley pleaded guilty and was sentenced to the Mansfield penitentiary; Barney Blankenship pleaded guilty and was given one year in Ohio penitentiary; James Geiger and Edward Campbell got the limit, \$50 and 30 days; Fred Heine got a 3-months workhouse sentence, suspended on payment of costs and \$2 weekly for maintenance; Will Cook, 3-months suspended workhouse sentence on payment of costs and \$2 weekly; Dick Flannigan got \$50 and costs and 30 days in county jail; Jacob Myers, 3 months suspended sentence upon payment of costs and \$10 per week.

**Jail Delivery.**

On last Wednesday night, John Short, Jr., a young man about 17 years of age escaped from jail. He had been indicted with a man named Cookley for breaking into the Orbison company store. At the trial he turned state's evidence and was sentenced to the Mansfield penitentiary. Cookley was given five years in the pen. Short, claiming he feared bodily harm from Cookley, was given quarters by himself in the room upstairs. With the aid of a poker he knocked out the bricks under the window sill, and making a rope of the bed sheet, escaped. The sheriff started in pursuit this morning. His capture is certain.

**Sudden Death of Mrs. Saumenig.**

Mrs. Sarah Saumenig, one of our oldest citizens, died suddenly at her home on North Market street, on last Tuesday evening. She was 83 years of age and had been in feeble health for some time, but was about in her usual health. She ate her supper, but in a short time complained of weakness, was gently placed on a lounge, and in less than an hour was dead.

The time of the funeral has not been fixed, awaiting the arrival of her children in New York and elsewhere. A proper memorial mention will be made next week.

**The Bell Telephone Co.**

**A Presentation to the Logan Public.**

To the People of Logan: The Bell Telephone Co. is endeavoring to gain admission with good telephone service to your city.

We are doing so at the earnest solicitation of your best citizens, and are being encouraged by them. We have previously withheld entering into competition; first, because you had a company which covered your town fairly good; next, because the then present operating methods would not permit rates, comparable with good service, so low as you were enjoying.

Within the past year you have had ample time to test thoroughly the performances and promises of the company now here, and the number of signaures for our service is an evidence of your opinion of it.

We do not come with a proposition to build for a bonus—to organize a local company upon which to unload, nor to land-scheme or stock-job a plant. We are in the business of selling telephone service of the highest possible type at a reasonable price, and all we ask is your patronage. We will have no apologies to make for failure to give either sufficient or efficient service.

Apologies do not fill your pockets with refunded rentals nor improve the service. We guarantee connection with 150 subscribers before a cent of rental will be charged you for services, and no effort will be spared to bring the number to 300 if possible.

We furnish nothing but the best "Bell Long Distance" type of instruments and metallic circuits throughout.

We feel that we are entitled to a trial.

We guarantee that our service is not experimental.

We propose to add an Exchange plant's valuation to your tax duplicate in addition to what we now pay and become one of your city industries.

We furnish toll line facilities from Canada to Mexico, from Maine to the Mountains. Arguments are being made by some who are interested in keeping up a monopoly of your telephone service, that it is a bad thing to let us in. We beg to call your attention to the fact that these same people argued exactly the other way when they desired admission into Lancaster, New-nville, Columbus, Circleville and other places where we had a monopoly. Are they not utilizing themselves now?

They are again promising to rejuvenate their plant. That is an old story. They are in a great rush to do so now, but their activity started only after they foresaw competition. They excuse themselves for being financially tied up. That is no fault of yours. You have given them your exclusive support.

We propose only one year contracts and merit a trial. We have the switchboard and other material ordered for a "Bell" Exchange in Logan right now.

Look at the list and join with these good people for better and more extensive telephone service.

F.; Mrs. Johnston, M. of T.; Mrs. Fawn K. Speelman, P. of T.; Miss Grace Beery, C. of O. T. Mrs. Luke Lehman, installing officer.**

**Report of the Visiting Committee.**

To the Judge of the Court of Common Pleas of Hocking County, State of Ohio:

We, the committee appointed to visit and inspect the charitable and penal institutions of Hocking County, hereby submit the following report:

On Wednesday, September 19th, 1902, we made our annual visit to the Infirmary and Children's Home, accompanied by the Directors, Mr. Wallace and Mr. Engle. We found

**THE HOME**

in an excellent condition under the management of Miss Noble. There are nine boys and ten girls, all but three of whom are found in the school room with Miss Carter as teacher. The children seem strong and healthy and are well cared for. Since the bathing facilities have been added, it is much easier to keep the children in good order. The matron is to be commended for the order in which the Home is found.

**THE INFIRMARY**

was also found in an excellent condition. As far as the cleanliness and order of the institution, there is nothing to suggest. There has been no change in the nursing since our last visit, and the old ward carpets in the sleeping rooms have been dispensed with. Where the floors are bare, the committee suggests the use of filling for the cracks and japane to give the floors the smooth, hard finish. It is also suggested that rugs be provided to put in front of the beds and in the bath room. Everything is as neat and clean as the surroundings permit, but it is the hope of the committee, that the day is not far distant when the basement kitchen and dining room will give way to a new, light and airy dining room above ground, or else the addition of a wing for the use of the Superintendent, thus leaving rooms that may be converted into a dining room and kitchen. It is also suggested that both buildings be heated by furnace or hot water, whichever is found to be the most economical, so that the rooms will be equally heated. The Superintendent and his wife are to be commended for the admirable condition in which the Infirmary is found.

**THE JAIL**

is in as good condition as the surroundings permit. It is suggested that a sink be put in the inside door, through which the food can be passed to the prisoners as the present way of opening the doors is not safe. The Sheriff has done his part, but the building is not what it should be.

**THE CALABOOSE**

needs to be remodeled in some way to give the proper air and light. It is suggested that it be thoroughly scrubbed.

The Committee has recommended these changes, because we believe that if carried out as much as possible they will benefit and uplift our institutions.

Respectfully Submitted,

**W. W. McCray**  
**W. H. WOODRUFF**  
**T. J. BROWN**  
**M. A. A. H. BROOKE**  
**Mrs. LEWIS GREEN**  
**Mrs. H. R. HARRINGTON**

Three Dollars worth of Nursery Stock for one dollar. In order to establish our trade with you, we will send you twelve McKinley Strawberries, six Columbian Raspberries, one Campbell Early Grape Vine, four apple and four peach trees, standard varieties, all for one dollar. Do not fail to write for our wholesale catalogue—Rochester and Brighton Nurseries, Rochester N. Y.—28-10
